54	Open Land	THE PLAYING FIELDS PARK GROVE	CM	29/01/24	Open Land: The open land of the Playing Field (including the tennis court) is in generally good order and fully serviceable for continued use, as maintained by the PF Trust and user clubs. In 2023 an external contractor was engaged by the PFT to spray the playing areas to reduce the spread of weed species, which has greatly improved the grass cover. The surrounding wild areas adjacent to the wall are tidied as required suing a local contractor. A continued problem for user clubs, especially in winter months, is the fouling of the playing areas by dogs off leads, which poses a threat to the safety and enjoyment of the facility for junior sports teams in particular.
54.1	Pavilion	THE PLAYING FIELDS PARK GROVE	CM	29/01/24	The pavilion remains in good order, maintained by the PF Trust and user clubs. A cleaner undertakes approximately 4hrs cleaning per month, to keep the facility in a suitable state. The medium term priority is to find a viable solution to store the grounds tractor & mower on site, as the current storage at Barrow Hill Farm is for sale with development plans.
54.2	Trees	THE PLAYING FIELDS PARK GROVE	CM	29/01/24	Several of the older boundary trees of the Playing Field are in questionable condition, particularly those on the boundary with Park Grove. An internally rotted lime tree fell partially across the Playing Field gateway in 2023, highlighting the potential risk to Playing Field
