

Questions

1: The preferred approach to selecting villages for inclusion in the settlement hierarchy is to include all settlements of around 500 population or more and to give consideration to the number of facilities and journey time to nearby towns. Do you agree with this approach?

2: The main towns (Tier 1 and Tier 2 of the settlement hierarchy) play an important role in providing for their rural hinterland. These settlements will be the focus for growth thereby helping to reducing car based travel. Do you agree with this approach?

3: The assessment of facilities is based on having at least three important facilities. Which facilities do you think should be taken into account? E.g. Children's playground, shop, school, doctors, employment space, meeting place.

Questions

4: Acceptable journey time to nearby towns is considered to be up to 30 minutes by public transport or up to 15 minutes by car. Do you agree with this approach?

5: Are there any concerns from a town council's perspective?

6: What do you consider is the current role of your town?

7: What issues are your priorities? Eg. Climate change, town centre redevelopment, affordable housing, ageing population, economic prosperity, community led housing.
